

CURRENTLY FREE FOR BUYERS AND PROVIDERS

Get started with Gapr

Find a production partner, or make your available capacity discoverable. Start with one useful action.

The homepage capacity card is an illustrative example. The numbered callouts show the two starting points.

I offer production

Create your business profile and list one capacity with current availability.

List capacity

I need production

Browse capacity or describe a real requirement in an RFQ.

Request quotes

One account. Buyer, provider, or both. Use **Continue with Google** when prompted. Follow the setup prompts for your business and role.

Currently free for buyers and providers in India and internationally. You can [browse without an account](#).

Need a hand? Reply to your invitation email or contact hello@gogapr.com.

YOUR FIRST GOAL: ONE SPECIFIC CAPACITY OFFER

Show what you can make

Choose List capacity on the homepage, then use the sign-in screen below.

Continue to Gapr

Use one account to find production capacity, offer it, or do both for your business.

G

Continue with Google

Read our [terms](#) and [privacy notice](#) before continuing.

✓

One secure sign-in, the right access.

Google verifies your identity. Your business membership determines your workspace access.

- Continue with Google**
 Choose the Google account for your business. Read the terms and privacy notice before continuing.
- Complete your business profile**
 Describe your facilities, processes and equipment. Add photos or verification evidence where requested.
- Describe one production offer**
 State materials, production limits, minimum order quantity, lead time and service area.

Actual Gapr sign-in. Finish your profile and listing in the workspace.

Keep availability current

Available now

Some capacity

Fully booked

EXAMPLE ONLY - ADAPT TO YOUR BUSINESS

Title / process	CNC aluminium brackets / 3-axis milling
Material / availability	Aluminium 6061 / Some capacity; about 20 machine hours per week
Lead time / area	Typically 2 weeks / Hyderabad, India; shipping by agreement

Next: submit your listing through the workspace prompts. Respond to review requests, then clarify and quote matched RFQs in the private workflow.

[EXPLORE WITHOUT SIGNING IN](#)

Find the right production fit

Open Browse capacity from the homepage. Search by the work you need made, then refine the results.

Category

All categories 1

Country

All countries

City

Any city

Availability

Any availability 2

☐ Verified businesses only

Show matching capacity 3

1 Choose process and geography

Set Category, Country and City to the production process and location that fit your work.

2 Check availability

Use Availability to focus on providers that can accept work. The Verified businesses only filter can narrow your search further.

3 Show matching capacity

Review the capability, material fit, lead time and availability before requesting a quote from a listing.

No suitable result? Broaden your filters or submit an RFQ for Gapr to review and match.

[Browse live capacity](#)

The screenshot focuses on the actual search filters. Listings and provider availability can change.

You can also begin with a requirement

If you already know what needs to be made, go straight to **Request quotes**. Prepare the process, quantity, materials, completion date, delivery location and technical files.

RFQ = REQUEST FOR QUOTATION

Describe one real requirement

Prepare the requirement before signing in. Use your own production details.

The screenshot shows the Gapr RFQ form with three numbered steps highlighted:

- RFQ title:** A text input field containing "CNC aluminium brackets - 100 pieces".
- Requirement details:** A large text area containing the text: "Manufacture 100 aluminium 6061 mounting brackets to the supplied drawing. Please include material, machining, inspection, packing, lead time and delivery in your quote."
- Category and Quantity and unit:** A row of three input fields. The first is a dropdown menu with "CNC machining" selected. The second is a numeric input field with "100" entered. The third is a dropdown menu with "pieces" selected.

Actual Gapr form with illustrative details entered for this guide. The example was not submitted.

1 Give the work a clear title

Name the process, part and quantity, such as CNC aluminium brackets - 100 pieces.

2 Explain what a provider should quote

Describe geometry, tolerances, finish and inspection needs. State what the quote should include and identify the drawing revision.

3 Set process, quantity and unit

Choose Category and enter Quantity and unit. Continue through Materials and quality, then Timing and delivery.

Before continuing: add materials, inspection needs, completion date, delivery country and city. Provider geography and the private address are optional.

Need a hand? Reply to your invitation email or contact hello@gogapr.com.

YOUR FIRST GOAL: ONE CLEAR RFQ SUBMITTED

Continue with confidence

Set the commercial context and confidentiality, then continue when the requirement details are ready.

Confidentiality

☐ **Standard**
Basic RFQ details can be shared with invited providers.

☒ **Confidential**
Limit details and files to explicitly invited providers. 1

☐ **NDA required**
Files stay locked to providers. Contact Gapr before selecting this option.

Continue when details are ready
Google sign-in comes next; files are added afterward.

Continue securely → 2

Actual Gapr confidentiality and continue controls. Add files securely after signing in.

1 Choose the access that fits the work

Budget and currency are optional. Choose Standard or Confidential as appropriate. For NDA required, contact Gapr first; files stay locked to providers.

2 Continue securely, then review and submit

Select Continue securely, sign in with Google, and complete any business setup prompts. Add the technical files, check your requirement and submit it. Keep the preparation tab open.

What happens after submission?

Gapr reviews general RFQs and invites suitable providers. Requests made from a capacity listing go to that provider. Clarify questions, compare price, lead time and assumptions, then select the offer that fits your requirement.

Your organisation, authorised Gapr operators and legitimately invited providers can access the relevant RFQ context.
